

Introduction

The purpose of this article is to explain the information found on the **Employee Welcome** screen.

Navigation

In order to view the **Employee Welcome** page, log into iSolved using your Employee Self-Service email address, and the password you created when you authenticated your account. Please ensure that passwords are a minimum of 12 characters, at least one lower-case alpha (a-z), one upper-case alpha (A-Z), one numeric (0-9), and one special character. Spaces are allowed to support the use of easier to remember passphrases. Going forward, your password will not expire. Passwords may also not duplicate any of your previous 10 passwords.

If you key an incorrect password five times, you will be locked out of the system. You will receive a message after each incorrect attempt indicating the remaining number of attempts. After the fifth incorrect attempt, you will be locked out of the system for 10 minutes. After the 10 minutes has passed, click on the "Forgot Password" link and change your password. If you need access sooner, you may contact your company's administrator to unlock your account.

The **Employee Welcome** is the default screen when signing into Employee Self Service.
